### Case and Testing Update

I am happy to report that there are still **zero resident cases** of COVID-19 in our communities.

This week, a staff member at Eastern Park Apartments (EPA), one of our Affordable Housing communities, tested positive for COVID-19. The employee is currently self-isolating and is feeling well. All EPA residents, staff, and contractors were notified, and all floors and common areas have been thoroughly cleaned and disinfected.

The staff member from The Sequoias Portola Valley who tested positive in late June is also isolating at home and doing well.

### SIP with Sara on Saturday, July 11

The second SIP with Sara Zoom conversation for CCRC residents takes place this Saturday, July 11. I'm looking forward to sharing an overview of what's next for Sequoia Living and hearing ideas and questions. Recordings of the calls will also be available.

### Staff Survey Update

282 Sequoia Living staff members contributed to our culture by completing a short survey about COVID-19 and our "new next."

Next week we will begin sharing survey results and having conversations about actions we can all take to continue to ensure Sequoia Living remains a great place to live and work.

- **Almost 100%** of Sequoia Living staff approve of the COVID-19 Action Plan, posted online at <https://sequoialiving.org/covid-19-updates/>.
- **98%** of Home Office staff and **92%** of staff in Sequoia Living Communities are aware we have **zero** resident cases of COVID-19.
- **75%** of staff would like regular financial updates.
